DEMOLITION DEADLINE

One house...One couple...Complete deconstruction

Craig and Kerry are a young couple who have recently purchased a property in the northern suburbs of Brisbane. The house, an old timber and fibro clad dwelling, is in poor condition and will require demolition before they can build a new home on the site. With the recent arrival of a baby son, Kerry has decided to give up work to concentrate on raising their child and manage the building of their new home. Before construction can start, however, the existing house must be removed. Craig wants it demolished as quickly as possible, but Kerry has other ideas....
